Helping Nature Store Our Water

ADDENDUM NO. 1 TO

Request for Proposals
Materials Processing License Agreement

1630 W. Redlands Blvd., Suite A
Redlands, California 92373
(909) 793-2503

The SAN BERNARDINO VALLEY WATER CONSERVATION DISTRICT issued its “Request for Proposals-Materials Processing License Agreement” on or about October 13, 2025. This Addendum supplements that Request for Proposals, specifying the date, time, and location of the October 23, 2025, Pre-Proposal Meeting referenced at Page 4 in the “Proposed Calendar” section, which is mandatory. The mandatory Pre-Proposal Meeting was identified in the Request for Proposals as occurring on October 23, 2025. The purpose of this Addendum is to provide specific information regarding the meeting for prospective proposers.

All parties intending to respond to the proposal are hereby advised the Mandatory Pre-Proposal meeting will be held in person on October 23, 2025, at 8:00 am. The meeting location is: 32251 Santa Ana Canyon Rd, Highland, CA 92346. Attendance in person is required, since the Pre-Proposal meeting will also involve a tour of the District’s properties over which the Request for Proposals pertains, and the specified haul routes for transporting, hauling, removing, or otherwise moving aggregate and other materials. Parties may contact Tom Crowley, the District’s Consulting Engineer, at 909-213-7055 or tom.crowley@dopudjawns.com, for additional information about the Pre-Proposal Meeting, or to answer any questions.

Please note that this Addendum supplements the original “Request for Proposals-Material Processing License Agreement,” but does not amend or delete any provision of it. The proposal response due date of October 31, 2025, remains unchanged. This Addendum is hereby incorporated into, and made a part of, the original Request for Proposals-Material Processing License Agreement.

All proposers must acknowledge receipt of this Addendum in their proposal submissions.
